Dear Hiring Manager,

Good morning, I am writing to express my interest in the **Data Analytics / Data Scientist / Machine Learning / Gen AI** role at Capgemini. I Completed my master's degree in **MSc Data Science at Reva university**. I am confident that I have the qualifications and am a quick learner to flourish in this position.

I am comfortable with **Python and Data Science**. My area of interest lies in data analysis, data preparation, machine learning techniques and Currently Exploring **Gen Ai [RAG & Agents].**

I have experience in Data Analytics at Disha AI and in assisting researchers and faculty at my university for projects, my recent work was based on FastTag Fraud Detection and is submitted to a Journal. which was also my minor project and for my major project I worked on Understanding Brain Tumor Progression: Insights from Stage-based Analysis and Recurrence Patterns.

I am particularly drawn to Capgemini because of its reputation as a leader in the field of Data & Ai and its commitment to innovation. I am excited about the opportunity to work with a team of talented professionals and to contribute my skills to Capgemini clients make data-driven decisions.

My purpose for reaching out to you is especially for industry experience to tackle real world challenges in an effective way. I believe my background in data science and my keen interest in learning and working on challenging projects makes me a strong candidate for this role.

Thank you for your time and consideration, I look forward to hearing from you soon.

Sincerely,

PRATHAMESH PRADEEP DESSAI
